

AMC - Strategic Planning and Change Management

Who Are We and How Can We Help?

AMC Infomediarities specializes in helping customers leverage resources by a combination of information technology and on demand expertise.

Expertise: Strategic Planning and Change Management

Whatever the domain, we bring high level expertise and well-grounded understanding of our clients' operational or business objectives:

- Growing your business, including getting new business and developing new products
- IT and HR infrastructure, management and ROI
- Risk and performance management, such as peaks in capital spending
- Regulatory compliance
- Aging workforce and "at risk" knowledge
- Integrating companies into your business.

Experience

Our experience in strategic planning and change management is wide: state government - the Florida Departments of Elder Affairs, Children and Families, and Revenue; regional government - DG Enlargement, Brussels; non-profit associations - the Association of Clinical Research Professionals; insurance - MetLife; banking - ING Group; utilities - Omaha Public Power; and transportation (Virginia Department of Transportation).

How Do You Work with Us?

Our "on demand" model allows you to choose the way you work with us. We offer a unique blend of traditional and innovative techniques, yielding excellent, reliable results:

- We can find you the people you need
- We can manage upgrades and enhancements, and train your work force
- We can help you reposition your organization or business in the face of change.
