

AMC - Implementations, Upgrades, Enhancements, Training and Support

Who Are We and How Can We Help?

AMC Infomediarries specializes in helping customers leverage resources by a combination of information technology and on demand expertise.

Expertise: Implementations, Upgrades, Enhancements, Training and Support

We have functional, technical, and project management resources to assist with:

- New Implementations
- Upgrades
- Enhancements
- Training
- Support

Experience

We have extensive experience in enterprise systems including clients such as: Florida Department of Agriculture and Consumer Services, Omaha Public Power District, Association of Clinical Research Professionals, MetLife, ING Bank, City of Albuquerque, the Port of Seattle.

How Do You Work with Us?

Our "on demand" model allows you to choose the way you work with us. We offer a unique blend of traditional and innovative techniques, yielding excellent, reliable results:

- We can find you the people you need
- We can manage installations, upgrades, enhancements, support, and train your work force
- We can help you reposition your organization or business in the face of change.
