## PeopleSoft Upgrades

PeopleSoft upgrades can provide your users with new functionality, enhanced integration with other systems, continued technical support, and improved business processes. Understanding your return on investment, and transitioning to the new version of PeopleSoft is the key challenge that management faces.

At AMC, our services are designed to help with this challenge. We offer:

- Full upgrade planning services, including:
  - Project Characterization
  - Project Charter and ROI
  - Project Consultation, including fitgap analysis
- PeopleSoft Upgrades
- Staff Augmentation, including project management
- Remote Lab Services
- Workforce Development and Training

## Common Upgrade Challenges

Common upgrade challenges include stakeholder understanding and ROI, limited staff availability, key resources becoming bottlenecked during critical times, and lack of understanding of the complete impact of the upgrade.

Our Methodology is designed to assist our clients with these key issues, and our remote lab and online resource center can help you to get the maximum ROI out of your PeopleSoft investment.

## Remote Lab

Our remote lab services allow your staff and operations to continue without impact while the upgrade is conducted remotely.

## Online Resource Center

Supports multi-company initiatives and remote work  
Saves you money, lowers your risk  
Integrates with other systems  
Blended Staff
